2022

Committed to becoming one of the industry most
professional custom packaging suppliers

As a supplier of ECO friendly products, we were founded in September 2017, we provide biodegradable clothing bags, express bags, garbage bags, as well as Medicine paper box, and paper bags, fast food burger bags, French fries bags, pizza boxes, paper food tableware, and more paper products...and bamboo chopsticks, bamboo knife and fork, spoon, and bamboo plates, we are environmental lovers. We only focus on environmental products, we have a professional team to strictly control product quality, Our products are exported to Europe, USA, Canada and Australia as well as South American countries.

Welcome to visit us. Our products are certified by SGS, FSC, LGFB, ISO, BSCI, BRC, BPI COMPOSTABLE, TUV AUSTRIA OK COMPOST, EN13432. We can also design products according to the PDF drawings and 3D drawings you provide.

Honeycomb wrap introduce

Honeycomb paper is made according to the principle of honeycomb structure in nature. It is a new type of environmental protection and energy saving material that connects corrugated base paper into numerous hollow three-dimensional regular hexagon with adhesive method to form a whole stress piece -- paper core, and binds surface paper on both sides of it. It is mainly used as indoor door lining

Honeycomb wrap introduce

Honeycomb paper is made according to the principle of honeycomb structure in nature. It is a new type of environmental protection and energy saving material that connects corrugated base paper into numerous hollow three-dimensional regular hexagon with adhesive method to form a whole stress piece -- paper core, and binds surface paper on both sides of it. It is mainly used as indoor door lining

Functionality

01.

Light weight,
less material,
low cost.

02.

High strength, smooth surface,
not easy to deformation.

03.

Good impact
resistance and
buffering.

04.

Sound absorption,
heat insulation

05.

Special processing can
be carried out to obtain
unique functions

06.

Export without fumigation

07.

Environmentally friendly products

08.

Rigidity is easy to adjust

colour

Colorful honeycomb paper

Contrast

1. *Good buffering performance*
2. *Good plane compression resistance*
3. *Environmental protection type green material*

1. *Goods are easily damaged*
2. *The goods cluttered*
3. *Not good for transportation*

size

| width(cm) | length(m) | colour | GSM |
|-----------|------------------------|---------------------|-------|
| 30cm | 30m/50m 100m/200m/250m | Natural/Black/white | 80gsm |
| 38cm | 30m/50m 100m/200m/250m | Natural/Black/white | 80gsm |
| 40cm | 30m/50m 100m/200m/250m | Natural/Black/white | 80gsm |
| 50cm | 30m/50m 100m/200m/250m | Natural/Black/white | 80gsm |

Biodegradable cow paper material

Honeycomb cushioning wrapping paper is a roll of honeycomb-shaped kraft paper, after stretching and unfolding, it becomes an angular honeycomb unit

product application

honeycomb paper envelope

The new type relates to a cowhide honeycomb envelope, especially a cowhide honeycomb envelope related to the field of mail supplies. The honeycomb cardboard has the advantages of light weight, large flat compression strength, good buffering performance and so on, and belongs to the environment-friendly green material.

Functionality

01. Light weight, less material, low cost.

02. High strength, smooth surface, not easy to deformation.

03. Good impact resistance and buffering.

04. Sound absorption, heat insulation

05. Special processing can be carried out to obtain unique functions

06. Export without fumigation

07. Environmentally friendly products

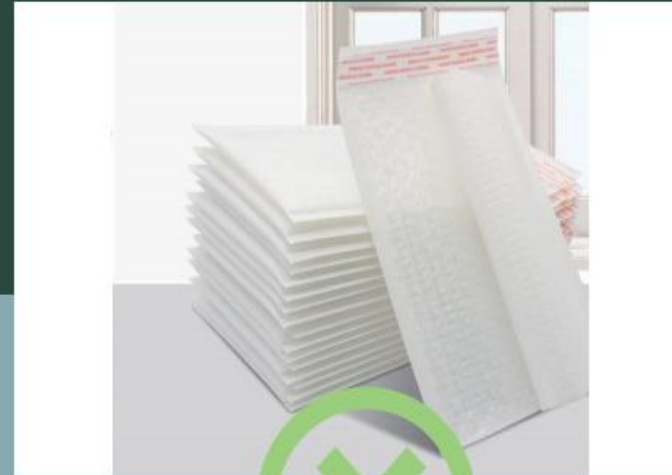

08. Rigidity is easy to adjust

Contrast

1. *Good buffering performance*
2. *Good plane compression resistance*
3. *Environmental protection type green material*

1. *Not environmental protection*
2. *It is not easily degraded*
3. *Pollute the air*

Introduce

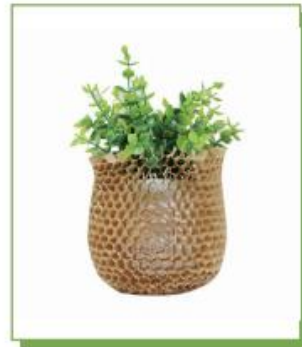

size

| product name | Product size |
|---------------------|---------------|
| Honeycomb paper bag | 17x22.5+4.5cm |
| Honeycomb paper bag | 23.5x28+4.5cm |

Honeycomb paper tube

Honeycomb paper sleeve is made according to the principle of honeycomb structure in nature. It is a new type of environmental protection and energy saving material that uses adhesive bonding method to connect corrugated base paper into numerous hollow three-dimensional regular hexagon, forming a whole force piece -- paper core, and bonding surface paper on both sides, Packaging for transportation can not only protect products, but also reduce transportation costs.

Functionality

01. Light weight, less material, low cost.

02. High strength, smooth surface, not easy to deformation.

03. Good impact resistance and buffering.

04. Sound absorption, heat insulation

05. Special processing can be carried out to obtain unique functions

06. Export without fumigation

07. Environmentally friendly products
