QUALITY MANAGEMENT

As the leader in the drafting of paper bag industry national standards, NanWang is fully equipped with the most-advanced lab in its field and has developed internal QC standards. To maintain strict quality standards, our lab testing includes smoothness, stiffness, thickness and whiteness of paper, raw materials, in-process and finished products, utilizing testing equipment such as UV Spectrophotometer, MDS, etc. Our Traceability system starts from incoming inspection to finished product which allows us to trace back all related raw material, finished goods, machinery, operator, and QC in 2 hours.

SECURE BOTTOM FOLD

Pinch bottom bags are the essential packaging solution for bakeries, pastry shops, cafes and fast food restaurants. Our bags are made by state-of-art German machines with an output of 2,000 bags/minute, including with and without gusset are available. These bags are made with food-grade white paper and kraft paper which are recyclable and eco-friendly, and they are printed with non-toxic water-based ink to ensure the safety. We recently developed an innovative pinch bottom bag with perforation and sticker. When the food is packed in the bag, customers can enjoy the food by peeling the top half part of the bag.
